

Blazun by Gessner™ Polycarbonate Drinkware

Highest quality polycarbonate barware, drinkware and glassware

The world's best plastic glass. **Blazun by Gessner™** delivers the safest drinkware to the hospitality industry. Our heavy duty polycarbonate glassware and polycarbonate drinkware are virtually unbreakable, safe, scratch resistant, durable and reliable. Made from the highest quality food grade polycarbonate, our plastic glasses have the look, feel and clarity of their real glass equivalent. All items are dishwasher safe.

Wide range of shatterproof glassware and unbreakable barware

All of our unbreakable glassware is food approved. **Blazun by Gessner™** design and manufacture the best quality in the market. Our plastic glasses look, weigh and feel exactly like ordinary glasses. Our diverse range of polycarbonate drinkware is designed to suit all applications and environments with its glasslike characteristics. With sound knowledge and advanced production techniques, our factory technicians have developed a unique method to strengthen the internal structure of each piece that guarantees no cracking or injection bubbles.

Why use unbreakable glassware?

There are many benefits for public venues, sports clubs, outdoor areas, pool-side restaurants, night clubs and personal use.

- **Premium quality** - our premium plastic glasses look and feel exactly like real glass
- **Save money** - our shatter-proof glasses are cheaper in the long run due to lower replacement cost
- **Reduced weight** - improves your staff's working environment
- **Increased Safety** – our glasses will not break & injure patrons, and cannot be used as a weapon
- **Less Wear & Tear on Floors** – broken glass will not be ground into carpet or scratch floors
- **Positive Public Relations** – good press for using a safer alternative to glass
